ROBERT A PLOCK Home: (214)799-7775
Gender:Male DOB: 07/26/1968 Insurance: UMR

06/21/2013 - Office Visit: IM WI/SICK - ENC#22227657

Provider: William Thomas Christensen MD

Location of Care: MedProvider

Status: ON HOLD DOCUMENT. Contents are preliminary

Visit Type: Acute Visit

Primary Care Provider: William Thomas Christensen MD

Chief Complaint: headache, lightheaded, sweating, and belching .

History of Present Illness:

Pt relates that since awakening this morning he has had a headache at the base of his head, describes it as a constant pressure; took ibuprofen 1 hr ago and relates that the HA is improved. While driving to work this morning pt describes being diaphoretic, belching excessively, feeling lightheaded/dizzy + nauseous. Given that he felt "unusual" the pt decided to stop at a fire station, there his BP was elevated 150s/90s. Pt took 2 tabs tramadol 50mg this a.m. and 1 Norco.

No EtOH in last 24 hrs.

Denies chest pain, SOB, vomiting, blurry vision/diplopia, syncope, or focal neurologic symptoms.

Review of Systems:

General: Complains of dizziness; denies fever.

Eyes: Denies recent visual changes.

CV: Denies chest pain or discomfort, palpitations/irregular heart beat, and syncope.

Resp: Denies shortness of breath.

GI: Complains of nausea; denies vomiting.

Neuro: Complains of headaches; denies ataxia, diplopia, numbness, and sudden loss of vision; See HPI.

Vital Signs:

Patient profile: 44 year old male

O2 Sat: 98 % on Room air

Pulse rate: 73 per minute

BP sitting: 140 / 80 (L. arm sitting)

Cuff: large

Vitals Entered By: Jessica Medrano NRCMA (June 21, 2013 10:55 AM)
